Part A: Ambala-Kurukshetra GA											
1	Design, Engineering, Manufacturing, Inspection, Testing, Supply (Including Transportation, Transit insurance, packaging & forwarding, handling, loading & unloading) erection(Installation) & commissioning with commissioning spares, comprehensive O&M services with in warrantee period and delivery at Ambala-Kurukshetra (HOGPL) store/site) of Motor driven Hydraulic variable suction CNG Booster Compressor 400 SCMh Capacity package with air compressor of capacity approx. 1.5 kW, discharge pressure approx. 10 kg/cm2g , 100 water litre capacity air receiver and air dryer along with all accessories and auxiliaries as per Technical volume of Tender document complete in all respects including special tools and tackles with the list. Operation & Comprehensive maintenance of 400 SCMh booster Compressor including Air compressor during warrantee period inclusive of operator, manpower, spares, consumables etc. O&M consist of below: a. Operation of minimum 18 hours of the compressor with max. 6 hours regular maintenance time. b. Preventive maintenance at regular interval by OEM /authorized contractor as per recommendation of OEM c. Break down maintenance as and when required within AMC by OEM	Nos	09								
2	Lump sum Monthly Operation & Comprehensive maintenance charges per CNG Compressor including Air compressor for 1st year after warrantee period inclusive of operator, manpower, spares, consumables etc. O&M consist of below: a. Operation of minimum 18 hours of the compressor with max. 6 hours regular maintenance time. b. Preventive maintenance at regular interval by OEM /authorized contractor as per recommendation of OEM c. Break down maintenance as and when required within AMC by OEM	Machine Months	108								
3	Lump sum Monthly Operation & Comprehensive maintenance charges per CNG Compressor including Air compressor for 2nd year after warrantee period inclusive of manpower, spares, consumables etc. O&M consist of below: a. Operation of minimum 18 hours of the compressor with max. 6 hours regular maintenance time. b. Preventive maintenance at regular interval by OEM /authorized contractor as per recommendation of OEM c. Break down maintenance as and when required within AMC by OEM	Machine Months	108
