We understand that the clause requires a Letter of Approval of work as a sub-contractor from the Client/End User. However, we would like to highlight that in our case, we are having approval as a sub-contractor under the Contractor, not directly appointed by the Client. Due to payment guarantees, clients typically don't approve sub-contractors of contractors directly.</p> <p>We request you to consider our completion certificate from the main Contractor, appointed by the Client, as a valid document for evaluation purposes. We're willing to provide relevant proof documents, including payment receipts, to support our claim.</p> <p>We believe our experience and capabilities as a sub-contractor should be evaluated based on our work executed under the main Contractor. We assure you we'll meet all required criteria and provide necessary documentation.</p> <p>We kindly request you to consider our request and provide an opportunity to work with you. We're confident our expertise and performance will meet your expectations.</p>	Refer Corrigendum 1
